## SCHACHER AUCTION SERVICES

Robert Schacher 817-219-0102

5832 Wales Avenue, Fort Worth, Texas 76133  
r\_schacher@msn.com • www.schacherauction.com

Dear Wagyu Enthusiasts:

It is once again my pleasure to invite you to the Second Annual Sale of the Texas Wagyu Association. This year's sale will be held at the beautiful Tenroc Ranch in historic Salado, Texas. This new location in central Texas gives you an opportunity to see some of the great Texas wildlife, as well as the beginning of Hill Country.

In the year since our first sale, I have learned a great deal about the Wagyu Breed and all of the qualities that they have to offer. Working with this breed and this group of cattlemen has opened my eyes to a quality of beef that is unparalleled. Since having my first beef from a Wagyu carcass, I am always looking for the restaurants that serve this treasure, and I realize that they are the finest operations in the area. The name of the sale this year, "The Steaks Are High" is a direct result of this quality that I have learned to enjoy.

I am confident that as you inspect this sale book you will be pleased with the efforts the members of the Texas Wagyu Association have gone through to make this the best offering of Wagyu genetics available on the open market. You will have the opportunity to purchase the best in fullblood cattle, as well as, a select group of F1 cattle.

There will be a meeting of the Texas Wagyu Association on Friday afternoon at the Tenroc Facility that will be followed by a country social and inspection of the cattle. A Wagyu beef lunch will be served prior to the sale on Saturday. If you are not a member of the Texas Wagyu Association, I would encourage you to attend the meeting on Friday to find out about the exciting programs that this progressive group has to offer. In the last year they have started a feed test for bulls and heifers, they have had their own program on the "Cattle Show" on RFD TV and they have sponsored a statewide Wagyu Beef Cookoff that was held in Hamilton, Texas in September.

I look forward to meeting you all at the sale. If I can be of any assistance, please do not hesitate to call. See you on March 12.

Sincerely,

*Robert Schacher*  
Robert Schacher

### AMERICAN WAGYU ASSOCIATION SANCTIONED SALES TERMS AND CONDITIONS

**TERMS:** The terms of the sale are cash unless arrangements are made prior to the sale. Satisfactory settlement must be made with the clerk of the sale immediately after the close of the sale. Only when the above conditions are met will the buyer be entitled to the warranties listed below. Animals will be released only on a signed order from the clerk when presented to the barn superintendent. In no case will animals be released unless settlement is made with the clerk of the sale.

**EXPORT SALES:** Arrangements regarding health requirements and health tests for a specific importing country shall be a matter of agreement prior to the sale between the seller and the potential buyer. Otherwise, the buyer assumes all responsibility for all health tests.

**BIDS:** The highest bidder shall be the buyer. Bidding parties of their agents are responsible for all bids placed. Every animal or lot is pledged to absolute sale. In case of dispute, the animal or lot shall again be put up for advance bids, and if there is no advance bid, the animal shall be sold to the person from whom the auctioneer on the stand accepted the last bid. In the case two or more claim the bid, the auctioneer in the box shall indicate the party whose bid he recognized- Other claimants will be given an opportunity to increase the bid and bidding will be restricted to the two or more claimants.

**BY-BIDDING:** Bidding directly or indirectly on an animal or lot in which the bidder or any person from whom the bid is made has an ownership interest is prohibited unless the intention to bid is disclosed specific to each animal in the catalog and announced when the animal enters the sale ring.

**PARTNERSHIPS AND SYNDICATES:** In the case of cattle owned by partnerships and syndicates, any member of these partnerships or syndicates reserves the right to bid in their own behalf. Each member shall be identified.

**RISK:** All animals located at the sale site are at the purchaser's risk as soon as struck off, but will be cared for free of charge for 12 hours. Purchasers must make arrangements for the care of their purchases beyond the 24 hour period, unless sold for export in keeping with separate terms. Animals are solely at the consignor's risk prior to selling in the event.

**CERTIFICATES OF REGISTRATION. RECORDING OR IDENTIFICATION:** (Whichever Applies) All consignments must have certificates of registration issued by the American Wagyu Association, and will be furnished by the seller showing transfer on the records of the American Wagyu Association to the purchaser and will be provided free of charge within a reasonable period of time.

**WARRANTIES:** 1) Each consignor warrants clear title to the animal, and the right to sell same. 2) Each animal is sound and healthy in every respect and embryos have been recovered, processed, frozen, transferred and graded in keeping with IETS recommendations, unless otherwise noted in the catalog or announced from the auction stand. Every precaution will be taken to represent the physical condition of each animal or embryo, donors or recipients exactly as know. Examination of all purchases should be made

immediately after the purchase and before the close of the sale; and if found not to be as represented, complaint must be reported to the sale management before the close of the sale. In the event no complaint is filed, it is understood that the buyer assumes full ownership in the case of animals at the sale site together with all risks, after which no representations of the seller can be challenged through the sale management. Heifers that have never calved are in no way guaranteed as to the condition of their udders following calving. No guarantee is made concerning freedom from hardware unless so announced. 3) The seller has represented the breeding record of females and service age bulls as accurately as possible, all males or females are guaranteed to be breeders. a. Males--All bulls must be semen, trich, TB, BVD and lepto tested. b. Females--All females must be official calf hood vaccinates for brucellosis. Open heifers must have a breeding examination. All bred females must have a pregnancy examination within 30 days prior to the sale by an accredited veterinarian and the pregnancy status must be recorded on the animals accompanying health papers.

**SHIPPING:** Assistance will be given in shipping the animals after the sale. All cost+ risks and responsibility will be borne by the purchaser with the exception of special terms for export purchases. Transportation charges on all animals subject to adjustment shall be paid by the shipper.

**HEALTH WARRANTY:** The results of any future health test are not guaranteed. The American Wagyu Association, the seller and sale management can not be held liable.

**ERRORS:** The material in this catalog has been carefully edited. If errors or omissions are discovered, they will be announced. Such announcements take precedence over the printed matter in this catalog. Neither the editors of the catalog, the American Wagyu Association, the sale management, nor the consignors can assume any responsibility for errors or omissions in the catalog.

**ACCIDENT:** American Wagyu Association, the sale management, the consignors, and the owner of the grounds will not be responsible in any case for the condition of the grounds or the behavior of the animals and disclaim any liability in the event of personal accident or property loss.

**RESPONSIBILITY:** The consignor will represent and be responsible for his animals. In no case, however, will the consignor be responsible for any damages beyond the selling price of the animals. The American Wagyu Association, the sale manager assumes no responsibility but will endeavor to protect the interests of both buyer and seller.

**GENETIC TESTING:** All nominations must have been tested, or showed to be free of the following genetic conditions: Claudin-16 (CL16), Chediak-Higashi syndrome (CHS), Erythrocyte Membrane Protein Band III Deficiency (Band 3), Factor XI Deficiency (F11), and Bovine Blood Coagulation Factor XIII Deficiency (F13).

**INSURANCE:** Livestock Mortality Insurance on purchases is available from either Great American or Harding and Harding through the Sale Manager. If you would like to insure your purchases notify the personnel at the settlement desk.

<b>Suzataka 2</b>	Suzutani	DAI Ni Sakura 7 Tanishige 1526 Suzunami 472255

313 is a double bred Suzutani, one of the best Wagyu cow.

## 3 **CHR Ms SANJIROU 315** FLUSH OPPORTUNITY

**Black, Horned, Fullblood Cow**

**Birth Date:** 01/05/08 **Reg. No.** FB8719

**Consignor:** CHARLES KOETHER

<b>Sanjirou</b>	Michifuku	Monjiro 11550 Michiko 655635 Tanishige 1526
	Suzutani JVP Fukutsuru-68	Suzunami 472255 Dai 2 Yasutsuru 774 Teruyasu 649663
<b>MJB Ms Kitafuku 05K</b>	CHR Ms Kitaguni 037H 100	Kitaguni Jr CHR Ms Kikuhime 007F

This is a very nice Sanjirou cow out of an 068 daughter so there should be plenty of meat and marbling from this female. She had 8 viable embryos in her last flush.

### THE TERMS OF THE LOTS 1-3 FLUSHES ARE AS FOLLOWS:

The buyer is guaranteed four viable embryos and receives all produced in this flush. The cost of the flush is at the buyer's expense. Seller will provide two units of semen from one of the following bulls: Sanjirou, Shigeshigetani, Kikuyasu 400, Michifuku, Yasafuku Jr, or Kitaguni JR.

ETJ001 Hirashige Tayasu's sire is Dai 20 Hirashige J287, a line bred Kedaka bull. His maternal great-grandsire is the distinguished Tajiri-line Tayasudoi. An official Japanese progeny test showed that at least 80 percent of his steers would gain A5 grade, the highest given to carcasses in Japan. TBR Tomiko 7037T is one of the ranch's top donor cows and produced Don's favorite female, TBR Kimikura 2, 9026W. 7037T is a high Tajima cow out of Bar R Takazakura 12P and Bar R Ms 24H, a Michifuku daughter. Females produced from these embryos will have a large frame size, body volume, and excellent maternal traits. Steers from this mating will produce an excellent carcass weighing in around 900 lbs. A bull from this mating could be used over 100% Tajima cows to increase size and milking ability.

		Bar R Takasuru 1K
		JVP Ms Fukushige T10100
	Bar R Miss 24H	Michifuku
		JVP Ms Kikuchisa 19E

TF Itomichi 1/2 was bred by Mr. Shogo Takeda and is a son of Itomichi and a grandson of Dai 7 Itozakura J65, the most famous bull in Japan. Itomichi was one of 7 sons out of 1,000 to out-perform Dai 7 Itozakura J65. His dam, Dai 2 Kintou, and granddam, Ezokintou 1A, are high-grade cows of the Haraharashu line. His great-granddam, Ezokintou J11961, was awarded Grand Prize at the third Zenkyo (All- Japan Wagyu) competition. TBR Tomiko 2 7040T is one of the ranch's top donor cows and produced the top selling Japanese Black female at the Cowtown Classic Wagyu Sale in Fort Worth last year. 7040T is a high Tajima cow out of Bar R Takazakura 12P and Bar R Ms 24H, a Michifuku daughter. This mating will produce large framed females with great milking ability. Steers from this mating will produce an excellent carcass weighing in around 950 lbs. A bull from this mating could be used over 100% Tajima cows to increase size and milking ability. GURARANTEE: two, sixty-day pregnancies per package are guaranteed provided embryos are transferred by TransOva genetics into TransOva certified recipients. If the two pregnancies are not obtained from the five embryos, additional embryos will be provided at no cost to the buyer to make the guaranteed pregnancies. All ET expenses and the cost of recipients are the buyer's responsibility.

<b>TF 713</b>	Hikokura 1/10	Hikokura 1/7

We are selling **10 units** of semen on the new, elite AI sire. 9061W's sire TF147 Itoshigefuji, was bred by Mr. Shogo Takeda and is perhaps the largest Fullblood Wagyu bull weighing in excess of 2,400 pounds. TF147 is the result of Modoshikouhai (back crossing) with Itofuji, from the Fuji-mori line. Combining the Fujimori (supersized) and Itomichi line (good marbling) produced this bull with large frame size and good marbling. TF147 is well known for producing the best Full-blood Wagyu females. 9061W's dam is TF 713, a daughter of Kimifuku 3 and a Itomichi daughter. Kimifuku 3 is the highest marbling bull Mr. Shogo Takeda raised in his lifetime. 9061W is a Group C bull, and we believe he is going to be an excellent bull to produce top quality early maturing, growth and milking Fullblood females while complementing marbling on feeder cattle as well.

	BR Ms Takazakura 9640	

9034W was sired by Shigeshigetani, one of the top three second generation AI bulls. Shigeshigetani's sire Haruki II, is a half brother to Michifuku. His dam Suzutani, is well known by experienced breeders as probably the best Fullblood Wagyu female exported out of Japan. Suzutani's maternal sire was Shigeshigenami J10632, and her maternal grandsire was Shigekanenami, the bull that made the Kumanami line famous. The Kumanami line is known to have extremely potent marbling genes. 9034W's dam is BR Ms Michi-8614 2660, a high Tajima cow out of BR Michifuku 8614 and BR Ms Takazakura 9640. This bull will work well as a Group B or Group D Sire and will work well in either a fullblood or commercial F1 program.

Itohana 2 TF38	Itohana	DAI 7 Itozakura Yoshifukuhana Itomichi
CF505	Aino 6 Itsoshigenami TF 148	Aino 5 Shigeshigenami Fukuyuki Itomichi
	Hikokura 1/10	Hikokura 1/7

1012X is a young yearling bull sired by TF38 Itohana 2, a Fujiyoshi line bull. The progeny of TF Itohana 2 exhibit excellent maternal ability, good milking ability, and good frame size. He is a male calf of Aino 6 -- a notable fact given that 100% of the carcasses (17 of 17 cattle slaughtered) from the Aino group graded A-5 - the highest grade possible. 1012X's dam is CF505, a daughter of TF148 Itoshigenami over a Itomichi sired daughter. TF148 has the highest percentage of Kumanami line genetics outside of Japan having a double cross of Shigekanenami on his sire side plus another line through his maternal grandsire. TF148 is known for producing A5 carcasses with fine, white marbling. This bull offers excellent outcross genetics to most Fullblood Wagyu breeders and is an excellent prospect for an AI sire. For rotational breeding, he is classified as a Group C Sire. Seller retains the right to collect up to 1,000 units of semen for seller's breeding program at seller's expense and at buyer's convenience during the 12 month period following the sale.

<b>TBR Black Pearl 775T</b>	BK Ms 0152K	

F1 Wagyu X Maine-Anjou show/carcass contest steer prospect. This steer is sired by TBR Tatsuya 7036T. 7036T's sire is a Sanjirou son, and his dam is a Yasufuku Jr. daughter. 1034X's dam is a really nice daughter of BK Exclamation 605K and a Draft Pick granddaughter. This steer has a great hair coat and the look that will make you a winner.

**HAWKEYE  
BREEDERS  
SERVICE, INC.**

We invite you to stop and visit our facilities just west of Des Moines at Adel...we're 2 miles north and 1 1/2 east of I-80 Exit 110.

Progressive breeders throughout the country send their sires to Hawkeye's fully equipped family owned facilities to collect semen for both domestic use and world wide export. Known for quality care and workmanship, we're continually adding new services to keep your A.I. program on top.

Mobile labs for on-farm bull testing and semen collection within a 300 mile radius.

Information services for cattlemen wanting to enter the export market or expand their present export business.

**BULL TESTING**  **CUSTOM FEEDERS**  
**HEIFER DEVELOPMENT**

4715 CR 523 EVANT, TX 76525 [www.pxfeeders.com](http://www.pxfeeders.com)

254.471.5742 Off Donald Parrish 254.679.1200 Cell

254.471.5577 Home John Parrish 254.679.1259 Cell

Located in Central Texas with 35 years of experience in feeding and animal health, PX Feeders, LLC offers a variety of feeding programs that are designed to fit specific needs of each producer including custom feeding cattle at the PX Feeders, LLC facility or by shipping feed to the cattleman. Targeted by PX Feeders, LLC are their bull and heifer tests as well as bull and heifer development where both bulls and heifers are fed high roughage rations. Data collected in conjunction with the bull and heifer tests include average daily gain, hip height and ultrasound measurements with the addition of pelvic measurements for heifers. Artificial insemination is also offered at PX Feeders, LLC as an integral part of its heifer development.
